

No-Sew “Designer” T-Shirt Tote Bag

Supplies

Knit shirt

Scissors

Pencil or chalk

Direction

- Lay your t-shirt on a flat surface.
- Cut around the neckline and sleeves, as you cut the sleeves off make sure to leave 3 inches at the shoulder seam, this becomes the strap of the tote bag.
- Keep the bottom of the t-shirt lined up and cut the bottom of the shirt into 1 inch wide by 2 inches tall, “fringe.” Remember, cut the front and back at the same time, so your ties will be even.
- Cut the very first and last fringe piece at the side seam to create 2 pieces of fringe.
- Flip the t-shirt wrong side out and start tying the front and back fringe pieces together.
- Once all the fringe strips are tied together, you will notice the bag has small holes where you tied the fringe together. To close the small holes, tie together the fringe strips on each side of the hole. Keep doing this until every strip is double tied. (Skip this last step if you only going to carry larger items and not small items.)
- Flip the bag right side out, and you are done!
