

## “STRING ART” with a touch of Braille!

### Supplies:

- Rubber bands [variety of sizes]
- Wood
- Nails [Already attached]
- Yarn

### Directions:

Be creative! Take a wider rubber band and start at one side of the heart and wrap it around the nail. Next, stretch the rubber band to the other side of the heart and wrap it around that nail. This process is almost like you are crisscrossing the string art. Last but not least, take a narrower rubber band and stretch the rubber band all around the edge of the heart!

For added fun, remove the rubber bands and use; yarn, string or twine instead!
