

Weekly Dose Web Addresses and the use of the Grade 1 and/or Termination Indicator

If a number, a number and period, or a number and comma are immediately followed by a lower-case a-j, a *Grade 1 Indicator* is needed.

Examples:

www.furrykitten444.com

However, in the second example, a *Grade 1 Indicator* is NOT needed if the number is followed by an upper-case A-J.

Woodis12G.doc

In the third example, the *Grade 1 Termination Indicator* stops numeric mode, otherwise the letter d would be read as the number 4.
