

Weekly Dose Tic Tac Toe

QUESTION "Games are the trend in the classroom, working on an assignment with an example of a tic tac toe game. Not sure how to transcribe this into braille."

Suggestion, can be found in the *Rules of Unified English Braille* and they call this example noughts and crosses, but this same idea will work. Below is a breakdown of the different indicators used.

- • :: Dot locator for "use"
- : : : Grade 1 passage indicator
- :. Grade 1 terminator
- : vertical single solid line segment
- • horizontal line mode indicator
